Dear Cheyenna,

Seneca Healthcare District Hospital recently signed a Family Practice physician through the extensive resources of Jackson Physician Search and tremendous efforts of Scott Lindblom, Regional Vice President of Recruitment. For this reason, it is without hesitation that I am recommending Jackson Physician Search to any organization in rural California needing to find a partner in recruitment.

Recruiting to Chester is challenging – we are a town of roughly 2,000 and about 2 hours away from the closest major airport. Due to the historical difficulty of finding qualified physicians for our community, we have worked with firms to assist us with recruitment. Before working with Jackson Physician Search, we partnered with a large and well-known firm, but were ultimately disappointed with their lack of results.

Working with Jackson Physician Search and Scott Lindblom has been an entirely different experience and we have seen a marked difference in their approach versus what we have experienced with other firms. Scott has been professional, patient, and diligent. He served as both a recruiter and consultant who provided support and guidance every step of the way. His knowledge and insights have helped us take the necessary steps to secure a physician we know will be perfect for Chester.

I will continue to partner with Jackson Physician Search and Scott Lindblom because they continue to produce, and I am looking forward to our next search together!

Sincerely,

Linda Wagner
